

DAFOH Petition for International Day Against Forced Organ Harvesting

October 1, 2016

We, the undersigned, are alarmed by the mass of evidence of forced organ harvesting from prisoners of conscience in China. Of critical concern is the plight of the Falun Gong as the primary victims of this crime against humanity. By ending the genocide of this main group other targeted populations subject to this crime in China shall be safeguarded as well: Uyghurs, Tibetans and Christians. We understand that forced organ harvesting is an unprecedented form of evil in our time. We hereby ask the UN High Commissioner for Human Rights, Prince Zeid bin Ra'ad:

- 1) Call upon China to immediately end forced organ harvesting from detained Falun Gong practitioners, as well as from other prisoners and prisoners of conscience in China.**
- 2) Initiate further objective investigations that lead to the prosecution of the perpetrators involved in this crime against humanity.**
- 3) Call upon the Chinese government to immediately end the 17-year persecution against Falun Gong, which was initiated by former President, Jiang Zemin, in 1999, and which is the root cause and source of forced organ harvesting against this group.**
